**Qualification code**

Potchefstroom: 307100 (Full-time)

Potchefstroom: 307101 (Part-time)

Greenwich: 307103
T.1.3 MODULES AND CREDITS
Each qualification consists of a number of modules, with credit values of 8 or multiples of 8. One credit represents an equivalent of 10 study hours. Each module code consists of a four-letter subject abbreviation, followed by 3 digits, and then two sets of digits in parentheses, e.g.

NTES311 (6)(16):

New Testament Academic-level Semester Variable NQF-level Credits

Also consult A-regulations A.1.32 on this issue.

T.1.4 CLASS MEETINGS
As a general rule, the following holds:

• For the first three semesters, (two semesters at level 1 and the first semester at level 2) there is a maximum of two theory classes per week for each 8-credit module. For a 16-credit module, the maximum number of theory lectures is four per week.

• For all following semesters the maximum number of theory lectures for each 8-credit module is one per week. For 16 and 24 credit modules the maximum number of theory lectures is two and three per week, respectively.

T.1.5 RECOGNITION OF PRIOR LEARNING

T.1.5.1 The PU vir CHO accepts the principle underlying outcomes based, resource based and life long learning, in which consideration of articulation and mobility plays a significant role. The PU vir CHO also endorses the viewpoint that recognition of prior learning whether it has been obtained in formal teaching and learning programmes at this or another institution, or has been obtained informally (by experience), is an indispensable element in the decision concerning admission to and recognition of credits with the goal of placement in a specific chosen teaching and learning programme of the University.

T.1.5.2 In recognition of prior learning, the issue is demonstrable knowledge and learning an applicant has obtained, either by going through formal teaching and learning programmes, or by experience. At all times the question remains: What level of skill, evaluated in the context of the exit level skills
Introductory remarks

is required for the aimed at teaching and learning programme or the modules within it, or for the status for which the applicant is applying. Therefore, it is not just about the experience an applicant has on his/her record.

T.1.5.3 The PU vir CHO accepts that recognition of prior learning with the normal, existing policy on the allowance of recognition of credits to prospective or existing learners - whether of this or another institution - should and must be conducted valid(ly) reliably and fair.

T.1.5.4 When applying for recognition of prior learning, the applicant has to pay a non-refundable, administrative fee which will be periodically determined by the University.

T.1.6 REGISTRATION

Registration is the prescribed, completed process a learner went through to be registered as a learner of the University.

A learner admitted to the University registers annually for the period of the study of a specific programme at the time and place determined by the University for this purpose. The process consists of the payment of the prescribed registration fee, the completion of the registration form and the obtaining of the necessary signatures on the registration form.

The registration form is submitted to the registration department whereupon proof of registration is issued.

T.1.7 TRAINING OF MINISTERS: REFORMED CHURCHES OF SOUTH AFRICA

Learners who want to qualify themselves as eligible ministers in the Reformed Churches of South Africa have to pass through the ecclesiastical screening process, conducted by the Curators of the Theological Seminary Potchefstroom, well in advance (prior to the commencement of his/her studies). This screening takes place during September and October of the year prior to the first year of study. (More information on this is available at the administrative office of the Theological Seminary: Tel. 018-299 1846/7, Fax. 018-294 8952, e-mail tSadT@puknet.puk.ac.za)

These learners follow the prescribed programme BTh: Bible Languages (T.2.3, Programme code T301P), followed by Hons BTh (T5), MDiv (T6) and MTh (T8).
T.1.8 PRACTICAL WORK

Participation in practical work associated with specific modules is compulsory, and the practical work must be completed to the satisfaction of the Director of the School concerned, before the degree will be conferred.

T.1.9 EVALUATION

In the BTh, Honours, Mdiv, MTh and PhD programmes (excluding the mini-dissertations, dissertations and theses) a system of continuous evaluation is consistently employed in which the following assessment methods are used: self-evaluation exercises, written and oral tests and examinations, essays, assignments, oral presentations, class discussions and critical evaluations of books and articles.

Formative and summative evaluation are integrated in this process. For every examination internal examiners and moderators are appointed by the Council of the Faculty of Theology. The evaluation method for each separate module is explained in the study guide of the specific module.

In the MA, MTh and PhD programmes, a student also has to complete a mini-dissertation, a dissertation or thesis. This will be examined by at least two internal and one external examiners, appointed by the Senate of the university.

T.1.10 SUCCESSFUL COMPLETION OF A PROGRAMME

A programme is completed successfully when all the modules of which it consists have been passed separately, as indicated in rule A.8.7.

T.1.11 ACCREDITED INSTITUTIONS

The PU vir CHO and the theological training institutes listed below have a contractual agreement, according to which certain degrees of the PU vir CHO are offered in co-operation with these institutions. A person who wishes to study at the PU vir CHO under this agreement has to apply on the prescribed application form. The application has to be recommended by the specific institution. After admission is obtained, the learner has to enroll for a degree programme (mentioning the specific qualification- and programme code).

In 2002, the programmes as mentioned in this calendar will take effect. Learners who are still enrolled for the old programmes will be allowed to transfer to the new programmes, or alternatively, should complete the old programmes no later than 2003.
Institutions accredited by the PU vir CHO are the following:

Compilation of programmes, standards and programme outcomes of common interest are discussed here until consensus is reached.

T.2.1.5.3 Exit levels

None

T.2.1.6 Examination

T.2.1.6.1 Composition of the participation mark

The participation mark for a module is compiled from evaluations of participation in seminars, tests, and assignments and practical work, as specified in the study guide of the module.

T.2.1.6.2 Exam entrance

Entrance to the exam in any module is obtained by obtaining a participation voucher, issued by the School director, after all the requirements of the specific programme and/or the modules have been met.

T.2.1.6.3 Participation voucher and participation mark

A participation voucher, which grants the holder entrance to the exam in a module, will only be issued after a learner has to the satisfaction of the director of the school, who acts in consultation with the subject chairperson, met the requirements as set out in the specific module. The calculation of the participation mark is likewise explained in the study guide of the module.

T.2.1.6.4 Module mark

The module mark is calculated in accordance with the prescriptions of A.1.33 and A.8.8 in proportion with the participation mark and the exam mark as it is included in the specific study guide.

A learner registered for a programme at this university for the first time, who doesn't obtain a module mark required for passing the module, can still obtain a module mark of 50% if the exam is passed with at least 50%.
T.2.1.6.5 Passing requirements of the programmes

- The sub-minimum participation mark for all modules is 40% (As indicated in A.8.9)
- The required passing mark for a module is 50%.
- A programme is passed when all the modules of which it consists are passed separately (As indicated in A.8.7)

T.2.1.6.6 Repeating modules

A learner can sit up to two times for the examination in any module, within 12 months following the initial date of registration for this module, whereupon the learner has to register for this module again.
